

### **National Quality in Careers Ixion Gold award**

Hartshill Academy are very proud to announce that we have been awarded the national Quality in Careers Standard, including the Ixion Gold award!

This is England's dedicated national quality award that uniquely accredits four components of careers education, information, advice and guidance.

We have been working towards this award for the last 2 years, and the fact that all aspects of our careers provision have been marked outstanding is a testament to all staff and pupils within the school.

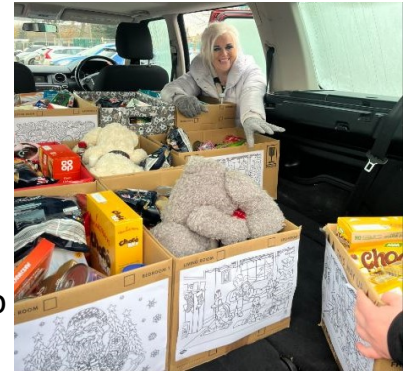

A massive thank you and well done to all teachers and pupils who were involved in the assessment process!

## Christmas Boxes

All forms at Hartshill Academy have been busy over the festive period with our reverse Advent calendar challenge. Pupils and staff have been donating items throughout December to make up Christmas hampers.

A special shout out goes to Miss Pickering's form who managed to fill three boxes and to our SEN department who donated two boxes and then delivered them to families in our local area!

## Christmas at Hartshill Academy

Thank you to the Creative and performance team and all of our very talented pupils for a wonderful Christmas Concert. We had a packed hall for the event showcasing songs, dance and performances that our pupils have been rehearsing this term.

We have had three wonderful Christmas Lunches this week. Year 7 were joined at Christmas Lunch by the Wates staff who are delivering the new build.

On Thursday we held our Christmas Cracker Rewards Assemblies to celebrate pupils who demonstrate our HART values every day. Congratulations to everyone who won an award and prize.
